

The Duncan Road used to be the old round Australia highway up until 1986. The first bit is maintained.

Sunrise at Carolines Pool. Pretty nice.

Palm Springs is right next to the Duncan.

Turnoff to Sawpit Creek. Duncan Road on left.

In the Wet these waterways would be flowing bigtime.

Looking back towards Old Halls Creek.

Turnoff for the track down to one of the many bores.

Morella is a big patch of water.

Good for a swim down at Morella.

Riding out of Marella Hole.

Almost 1000km to Darwin. At the NT border.

There are a few stockyards on the side of the Buntine.

Another cattle grid.

Roll sweetly across this.

Bunda Bore windmill is next to the Buntine.

Bunda Bore. Plenty of water here.

Can't see the headwind here.

Nice riding, hey.

Luckily the pea gravel doesn't cover the complete road.

The pea gravel can get soft as you head towards Kalkarindji.

The last 10km are easy.

Made it to civilisation, of a sort.

Down at the Warnkurr Social Club where everyone heads at sunset.

The Kalkarindji Community Store. The “camping ground” is the paddock next door, complete with grazing horses.
